Doraemon, Nobita, and friends bustle about in a three-dimensional amusement park that takes full advantage of the Virtual Boy's capabilities. Rush around unique stages, with roller coasters, bungee jumping, and more! Search for hidden, secret tools to rescue your buddies who have been kidnapped by ghosts!

## The Amusement Park at Night is a Ghostland!

There are five different characters to choose from. Each one has its own characteristic attack, so it's good to change characters for each stage.

Ride a roller coaster and try to get rid of the ghosts!
