It's an action game of the hero Henry – a fluffy, floating, downright strange creature! Strive to clear each stage as you go around collecting items and defeating enemies, such as small devils, by crushing them underfoot or blasting them away. Fly around freely in a field with depth!

Innocent-Looking Henry's Great Domination!

Henry is the dog-like character located a bit above the center of the screen.

A shootout with a boss! It's suddenly become a 3D shooter!
