Bottom Up

Expected Release: December

5,300 Yen (Tentative Price)

Capacity TBD

This is an unconventional breakout game. It focuses on using two characters to repeatedly hit a ball, which appears in the screen, into blocks to break them. The trick to clearing each stage is hitting the ball while performing various moves with the two characters, sometimes sticking them together and sometimes stretching them out.

THERE ARE MORE THAN 50 STAGES!

There are surfaces in the motif of pachinko and pinball, as well as giant-boss surfaces.
