Battle it out in a versus, dodgeball-style action game! Become victorious by hitting balls inside a room, such as a simple cube-shaped one, inflicting damage and reducing all of your opponent's strength to zero. Try to attack your opponent from various angles by reflecting your ball off a wall, off the ceiling or floor, or into a ball thrown by your opponent!

IT'S SIMPLE BUT HOT!

There are eight patterns of stages in total. Some stages, such as this one, look a bit strange.

Try to reflect a ball, which gets hit back and forth repeatedly, in a skillful manner.
