A horse racing action game where you can get a taste of the jockey's feeling and excitement by the realistic 3D images! Aim for derby supremacy as one of the jockeys within the horse racing circles, which consist of more than 20 people in total! Become familiar with the characteristics of your horse and the courses, for if you don't ride your horse well and you're not prepared for what unfolds before you, it's difficult to win!

## THE GOAL: DERBY SUPREMACY!

Have your personal secretary, Satsuki, confirm your request to ride; then it's off to the racetrack!

The jockey, serving as the alter ego of the player, can have a conversation with the horse!
